

48/3028 Sequin Egg Ornament Craft Kit

Be sure to have adult supervision if using a hot glue gun for this craft.

1. Make the egg stripes first to divide the egg into four equal sections. Approximately 12 sequins will fit per stripe around the egg lengthwise.
2. Prepare the sequins and pins as follows: Thread one sequin onto each pin so that the sequin faces cup side down. It is helpful to have pins prepared prior to placing into the egg.
3. Begin by filling in the sections divided by the stripes. Begin at the top of the section and then work your way down in rows. Place the pins into the egg so that the edges of the sequins overlap one another as shown. Approximately 30 sequins will fit within each section. You may add a drop of glue under each sequin to secure in place.
4. Make the ornament hanger by gluing both ends of the satin cording onto the top of the egg. Place one sequin pin on top of the hanger to secure in place. Glue the satin bow to the top of the egg as shown. Allow time for your craft to dry.
