48/4578 Little Leaf Friend Craft Kit

Please be sure to have adult supervision if using a glue gun for this craft.

1. Glue the printed foam leaf to the other foam leaf as shown in the picture. Glue the circle nose to the printed leaf face. Glue the satin ribbon bow to the leaf friend.
2. Insert the brads through the provided slits on the leaf friend body.
3. Using the provided slits, attach each arm and leg to the backside of the leaf body. Flip the leaf friend over and fold the metal brad prongs down to secure each arm and leg in place.
4. Glue each end of the satin ribbon to the back of the leaf friend. Allow time for your craft to dry.
