

48/5145 Earth Day Wooden Beaded Necklace Craft Kit

1. Lace the wooden earth bead onto the cording. Lace the beads on to one side of the wooden earth bead using any design you'd like or as follows:
One large green bead, one red heart bead, one blue bead, and one small green bead.
2. On the other side of the wooden earth bead lace the remainder of the beads following the pattern above. Center the beads in the middle of the cording. Tie a knot at each end of the beads to secure in place. You may attach the cardstock tag to the necklace if desired.
