

48/5256 Flip Flop Fleece Tied Pillow Craft Kit

1. Lay the fleece flip flop panel on top of the plain pink fleece panel, making sure that all the fringe pieces line up.
2. Tie each fringe pair together in a knot on three sides of the pillow.
3. Stuff the pillow through the untied side. Be sure to tear the stuffing apart into smaller bits to make it more fluffy.
4. When the pillow is completely stuffed, finish knotting the remaining fringe pairs.
