

48/5625 Plastic Bug Jar Craft Kit

Please be sure to have adult supervision if using a glue gun for this craft.

Bee Jar

1. Glue the foam bee body to the plastic lid, making sure to line up the pre-cut holes in the foam with the pre-cut holes on the lid before gluing in place.
2. Fold the black chenille stem in half to make the antenna. Glue the antenna and two wiggle eyes to the lid at the front of the foam bee body as shown.
3. Glue the foam grass around the bottom of the plastic jar. Glue the foam leaves and foam sign with print to the plastic jar as shown. Allow time for your craft to dry.

Lady Bug Jar

1. Glue the foam lady bug body to the plastic lid, making sure to line up the pre-cut holes in the foam with the pre-cut holes on the lid before gluing in place.
2. Fold the black chenille stem in half to make the antenna. Glue the antenna and two wiggle eyes to the lid at the front of the foam lady bug body as shown.
3. Glue the foam grass around the bottom of the plastic jar. Glue the foam leaves and foam sign with print to the plastic jar as shown. Allow time for your craft to dry.
