

48/7918 Jesus Saves Cross Craft Kit

1. Remove the paper backing from the yellow foam cross with print. Adhere it onto the green foam cross.
2. String the 5 plastic beads onto the middle of the yellow cording. Tie a knot on each side of the beads in the middle as shown, to hold then in place. You may want to add a small dot of glue (not included) to hold the knot in place. Allow dry time.
3. To make the hanger, adhere one end of the yellow cording onto one of the green foam circles. Adhere it onto the backside of the horizontal section of the cross. Repeat the same step with the other end of the yellow cording.
