

48/2969 Dream Catcher Craft Kit

1. Tie one end of the 70" long piece of white string onto the brown ring. See Figure 1. Tie the string into a double knot to secure in place.
2. Loop string in a series around the brown ring. Make loops about a half inch from the top of the ring. See Figure 2. You will need 7-13 loops.
3. Continue looping the string to the center of the ring in between the previous loops. Figure 3.
4. Continue looping the string until you reach the center of the ring. Finish the last loop at the bottom of the web. Loop the string around twice and tie a knot to secure. Cut any excess string. Figure 4.
5. Fold three of the 7" long pieces of white string in half and attach them to the bottom of the ring as shown. Figure 5.
6. Make the first feather pair as follows: Thread 3 pony beads onto each end of the string. Tie one end of the string onto the shaft of one orange feather. Place a small amount of glue (not included) onto the feather shaft and slide the beads onto the shaft as shown in the picture. Tie the other end of the string onto one yellow feather. Apply glue to the feather shaft and then slide the beads onto the shaft.
7. Repeat the above instructions to make the second feather pair using one red and one purple feather. Repeat the above instructions to make the third feather pair using one orange and one yellow feather.
8. Tie the ends of the last piece of 7" long white string into a knot to make the hanger. Loop the hanger onto the top of the brown ring as shown in the picture. Allow time for your craft to dry.
