Tall Paper Mache Tree

Supplies:

65/60514 Jolly Christmas Paper
65/60084 150 Full Color Spectrum Paper Pack
65/80010 Glue Lines
65/65806 10 Home Cookin' ribbons
Embellishments (sequins)
Stapler

1. To make the paper 'loops', cut approximately 75-100 strips of 6" x 1" paper. Fold but do not crease the paper strip and staple into place. Continue doing this for the remaining strips of paper.
2. Adhere each paper 'loop' to the tree with Glue Lines® making sure to adhere the strips to the tree in rows directly next to each other.
3. Paint the flowerpot base and wooden dowel with acrylic paint. Allow to dry.
4. Insert the dowel into the top of the flowerpot into the hole provided. Insert the opposite end of the dowel into the bottom of the tree into the hole provided. Adhere ribbon onto the flowerpot.
5. To make the tree topper, accordion fold a 12" x .75" strip of paper. Adhere the ends of the strip together to form a loop. Gently fold inside of the loop in to form a circle. Add a drop of glue to the center of the circle. It may be helpful to hold until the glue is dry or use a hot glue gun for faster results. Punch out a circle and embellish the tree topper with vintage sequins and beads. Adhere the tree topper to the top of the tree.
