STEP 1:

Fold a vertical piece along the score lines to form a long box shape with the white side facing out. Fasten the Railing securely by inserting the large and small tabs into the slot openings.

Fasten the top and bottom of the post shape by inserting the top tab into the slot opening.

Repeat Step 1 to make a total of 6 vertical pieces.

HELPFUL HINT

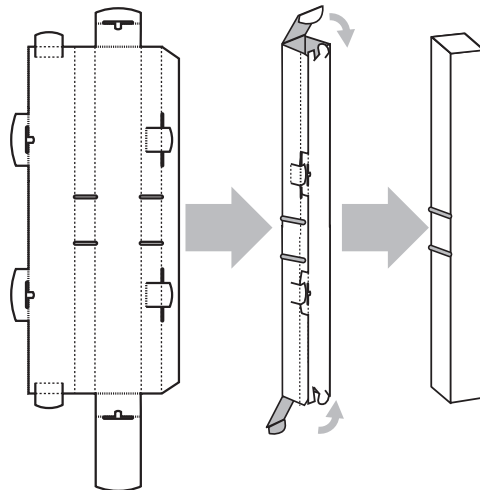

- Sometimes it helps to start in the middle and work outward.

STEP 2:

Fold a horizontal piece along the score lines to form a long box shape with the white side facing out. Fasten the Railing securely by inserting the large and small tabs into the slot openings.

Fasten the top and bottom of the post shape by inserting the top tab into the slot opening.

Repeat Step 2 to make a total of 6 horizontal pieces.

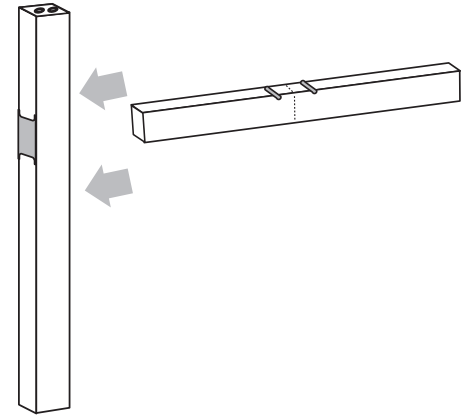

HELPFUL HINT

- Sometimes it helps to start in the middle and work outward.

STEP 3:

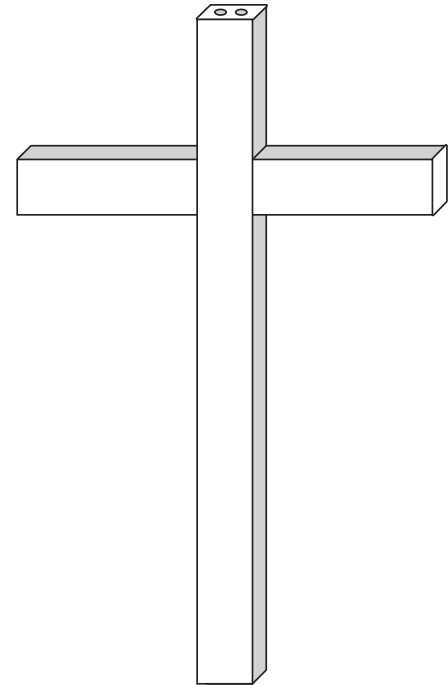

Slide the horizontal piece through the opening found in the sides of the vertical piece until the horizontal and vertical pieces "snap" together, creating the completed cross.

Repeat Step 3 until you have a total of six pieces.

Your 3-D crosses are finished!

Have fun with your projects!
Use it as a display piece or as part of a scene.

HELPFUL HINT

- Tie string through the top openings of the cross to hang from the ceiling or other high places
